

The Cloud with Filevine

Server-hosted management solutions just don't make sense anymore. Your team needs to be more connected, collaborative, and efficient than ever before if you want to keep up with today's legal world.

Without the Cloud, that's close to impossible. But with Filevine, it's the norm.

Security

Your data, safe and sound

-
- | | |
|-----------------------|---|
| Control Access | Assign tiered permissions to team members to ensure everyone has the access they need. |
| Fix Mistakes | Restore incorrectly removed documents, files and records with a single click. |
| Share Securely | Work with non-firm members by granting them Guest Access or sharing documents securely. |

Accessibility

Connect from anywhere

-
- | | |
|-------------------------------|--|
| Adapt to the Situation | Access your files from a computer, smartphone, or tablet for a unified, multi-device experience. |
| Work Remotely | Continue your work from anywhere, at any time. All you need is a web browser. |
| Stay Connected | Customize your alert schedules and receive notifications through SMS, email, and Slack. |

Dependability

24/7 uptime and reliability

-
- | | |
|-----------------------------|--|
| Work With Confidence | Filevine servers are hosted on Amazon Web Services, the most trusted server host in the world. |
| Stay Up To Date | Filevine updates are deployed automatically and won't result in downtime. |
| Get Help Now | Contact our full-time support staff to get the answers you need quickly and easily. |

The Bottom Line

The legal world is changing fast. As old systems are phased out and the industry moves toward cloud-based solutions, you'll need a case management system that is as mobile as you are. Filevine bridges the gap between the office, the road, and home to provide a unified case management experience wherever you are.
